

Who is a candidate for VPA® services?

A guide for Patients

- Are you **65 or older** or have you been disabled for two or more years?
- Do you have **considerable difficulty** leaving home to receive medical services?
- Are you **dependent on someone** else to transport you to medical services?
- Do you require an assistive device such as a **cane or walker** to walk around?
- Do you have **severe COPD** and/or are you **oxygen dependent**?
- Does **compromised immunity** put you at increased risk for contracting an infectious disease while waiting in a medical waiting room?
- Have you received **emergency room care** during the past year?
- Do you require **frequent medication changes** or require complex medical management?
- Is it **taxing to sit and wait** in a waiting area for medical appointments?
- Are you **having difficulty** with bathing, walking, dressing or toileting?

**If it is difficult for you to get to the doctor's office,
perhaps it is time for the doctor to come to you.**
